

BIO-POWDER

Bio-Enzymatic Pre-Spray

BIO-Powder is especially formulated to dissolve grease and oils and protein soils making them ready for extraction. It works great in restaurants and on problem soils found in homes and apartments. BIO-Powder is economical to use. It can be diluted for use with any type of sprayer for pennies per diluted gallon.

■ PHYSICAL PROPERTIES

APPEARANCE: Light Blue Powder
SPECIFIC GRAVITY: N/A
ODOR: Citrus
pH (Conc.): 9 to 11
FLASH POINT: N/A

■ PACKAGING

BIO-Powder is available in 8lb and 50 lb pails.

■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to www.chemicaluniverse.com.

■ DIRECTIONS

For Heavy Soil, mix 3 oz. BIO-Powder in one gallon warm water.
For Moderate soil, mix 1 to 2 oz. BIO-Powder in one gallon warm water.
For injection sprayers like Hydro-force, mix 12 oz. of BIO-Powder in 5 quarts of warm water. Spray ready to use mixture evenly on the carpet, give 10 to 15 minutes dwell time then extract.
Do not allow solution to dry on carpet before extracting. For maximum cleaning results, diluted solution should be used within 24 hours.

■ SAFE STORAGE & HANDLING

Store tightly capped in original container with label intact. DO NOT contaminate water, food or feed by storage or disposal. Dispose of empty container after triple rinsing. Do not reuse empty container.

CAUTION

KEEP OUT OF REACH OF CHILDREN. Causes eye damage. Do not get in eyes. May cause skin damage. Do not get on skin. Harmful if swallowed. Do not swallow.
See Material Safety Data Sheets (MSDS) and additional safety and regulatory information.

FIRST AID

Eye contact: Remove contact lenses. Immediately flood eyes with water for at least 15 minutes holding eyelids apart. Seek medical attention.

Skin Contact: Remove contaminated clothing. Rinse skin with running water for at least 15 minutes and until all traces of product are gone. If skin irritation persists, seek medical attention.

Ingestion: If swallowed, drink at least 3-4 glasses of water or milk. Seek medical attention.

Inhalation: If inhaled, remove victim to fresh air. If irritation persists, contact a physician.
