

# ENCAP! EXTRACTION

## Encapsulating Carpet Cleaner

Based on the latest technology in polymer surfactant cleaning, Encap! Extraction absorbs and cleans the worst soil. The soil is absorbed into a bonnet or suspended for later vacuuming when used with brush method. Remaining residue retards resoiling. This makes vacuuming more effective and is the foundation for an excellent maintenance system for commercial carpet.

### ■ PHYSICAL PROPERTIES

APPEARANCE: Clear Liquid  
SPECIFIC GRAVITY: 1.062  
ODOR: Citrus  
pH (Conc.): 8 to 10  
FLASH POINT: N/A (WATER-BASED LIQUID)

### ■ PACKAGING

Encap! Extraction is available in 4x1 gallon, 5 gallon pail, and 55 gallon drum.

### ■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to [www.chemicaluniverse.com](http://www.chemicaluniverse.com).

### ■ DIRECTIONS

Dilute 1 to 32 (4 oz. per gallon hot water). Dilute 1 to 16 for extra heavy soil. Application for extraction cleaning: Spray mixed solution lightly over a section of the floor surface. Allow solution to remain on floor for 5 minutes. Use hot water to extract the surface to remove all chemical and soil residue. Encap Extraction will dry in a crystalizing manner, which will allow 100% removal of any residual soil with the next days vacuuming. Encap Extraction is effective on all soil conditions.

### ■ SAFE STORAGE & HANDLING

Store tightly capped in original container with label intact. DO NOT contaminate water, food or feed by storage or disposal. Dispose of empty container after triple rinsing. Do not reuse empty container.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

This product may cause eye irritation and skin irritation. Wear eye and skin protection when using this product. Harmful if swallowed. Do not swallow.

#### FIRST AID

Eye contact: Remove contact lenses immediately, flood eyes with water for at least 15 minutes while holding eyelids apart. Seek medical attention.

Skin Contact: Remove contaminated clothing. Rinse skin with running water for at least 15 minutes and until all traces of product are gone. If skin irritation persists, seek medical attention.

Ingestion: If swallowed, drink at least 3-4 glasses of water or milk. Seek medical attention.

Inhalation: If inhaled, remove victim to fresh air. If irritation persists, contact a physician.

See Material Safety Data Sheets (MSDS) for additional safety information.
