

X-TRACT POWDER

Carpet & Upholstry Extraction Cleaner

X-Tract Powder is a proprietary blend of surfactants, organic acids, water conditioning agents and other ingredients. It is a highly effective cleaner designed to aggressively clean all carpet types without harming the fabric or any stain resistant properties that may exist. X-Tract Powder can be used with all hot water extraction equipment. It's mild pH insures compatibility with all carpeting, fabric and cleaning equipment.

■ PHYSICAL PROPERTIES

APPEARANCE: White Powder
SPECIFIC GRAVITY: N/A
ODOR: Fresh
pH: 2% Solution 7.6 to 8.5
FLASH POINT: N/A

■ PACKAGING

X-tract Powder is available in an 8# Tub and 50# Pail.

■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to www.chemicaluniverse.com.

■ DIRECTIONS

The carpet or furniture to be cleaned should always be vacuumed and free of debris before extraction. X-Tract Powder can be diluted directly into the solution tank of a carpet extractor. You can also dilute X-Tract Powder into a sprayer. Pre-spray the carpet and then use a carpet extractor with fresh water to rinse.

Once carpet and upholstery have been cleaned, a fan should be used to help the surface dry. Always make sure that the surface is completely dry before allowing regular traffic back into the area. A color fastness test in a hidden area should always be performed before extraction on colored carpet and fabrics.

X-Tract Powder should be diluted at a rate of 1/4 pound per gallon of water.

X-Tract Powder can also be used at the same dilution as a pre-spray for all traffic areas.

■ SAFE STORAGE & HANDLING

Warning: This product is intended for Industrial and Institutional use. It can cause irritation and/or damage to eyes and skin. Avoid contact by wearing protective devices such as safety glasses and rubber gloves. If contact to eyes or skin, flush with water for 10-15 minutes. If irritation persists, seek medical attention. Always read the Material Safety Data Sheet for additional precautions before using this product.

CONTAINER DISPOSAL: Triple rinse, then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.
