

# X-TRACT

## Carpet & Upholstery Extraction Cleaner

X-Tract is a proprietary blend of low foaming surfactant, organic acids, water conditioning agents and optical brighteners. It is a highly effective cleaner designed to aggressively clean all carpet types without harming the fabric or any stain resistant properties that may exist. X-Tract can be used with all hot and cold water extraction equipment. When diluted, it's mild pH insures compatibility with all carpeting, fabric and cleaning equipment.

### ■ PHYSICAL PROPERTIES

APPEARANCE: Clear Pink Liquid

SPECIFIC GRAVITY: 1.012

ODOR: Citrus

pH (Conc.): 12 to 14

FLASH POINT: N/A (WATER-BASED LIQUID)

### ■ PACKAGING

X-Tract is available in 4x1 gallon cases, 5 gallon pails and 55 gallon drums.

### ■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to [www.chemicaluniverse.com](http://www.chemicaluniverse.com).

### ■ DIRECTIONS

The carpet or furniture to be cleaned should always be vacuumed and free of debris before extraction. X-Tract can be diluted directly into the solution tank of a carpet extractor. You can also dilute X-Tract into a sprayer. Pre-spray the carpet and then use a carpet extractor with fresh water to rinse.

Once carpet and upholstery have been cleaned, a fan should be used to help the surface dry. Always make sure that the surface is completely dry before allowing regular traffic back into the area. A color fastness test in a hidden area should always be performed before extraction on colored carpet and fabrics.

X-Tract should be diluted at a rate of 2 oz. per gallon of water. (1:64)

X-Tract can also be used as a pre-spray for all traffic areas. To use X-Tract as a pre-spray, dilute anywhere from 2 to 6 ounces per gallon depending on the amount of soil in the traffic areas. If traffic areas are heavily soiled you should use Rush Hour traffic pre-spray.

X-Tract can also be used as a bonnet cleaning solution at 2 oz per gallon.

### ■ SAFE STORAGE & HANDLING

Warning: This product is intended for Industrial and Institutional use. It can cause irritation and/or damage to eyes and skin. Avoid contact by wearing protective devises such as safety glasses and rubber gloves. If contact to eyes or skin, flush with water for 10-15 minutes. If irritation persists, seek medical attention. Always read the Material Safety Data Sheet for additional precautions before using this product.
