

CONSEAL WB

Water Based Concrete Seal

Conseal is a proprietary blend of acrylic polymers specifically designed to provide a higher level of durability than conventional water-based sealers. Conseal is formulated for use on sealed or unsealed concrete. It can be used on both interior and exterior concrete. Conseal is resistant to water and many chemicals and oils. It is designed for easy application. No special acid etching or other preparation is necessary. Simply deep clean the floor and apply Conseal for a great looking, durable floor.

■ PHYSICAL PROPERTIES

APPEARANCE: White Emulsion
SPECIFIC GRAVITY: 1.023
ODOR: Acrylic
pH (Conc.): 7 to 9
FLASH POINT: N/A (WATER-BASED LIQUID)

■ PACKAGING

Conseal WB is available in 4x1 gallon cases, 5 gallon pails and 55 gallon drums.

■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to www.chemicaluniverse.com.

■ DIRECTIONS

Conseal has been specially formulated to provide an acrylic matrix that offers incredible strength and durability. The floor surface should be aggressively cleaned and dry before applying Conseal. Clean the floor surface with a high pH, butyl cleaner and brushes or aggressive floor pads. After the floor is cleaned, rinse with clear water and let the floor dry completely before applying Conseal. After the floor is clean and dry, apply the first coat of Conseal with a rayon finish mop, flat finish mop or a T-bar type of applicator. If a finish mop or flat mop is used, be sure to overlap the outside lines before the seal dries to prevent visible lines. After the first coat is dry, (approx. 1-2 hours) apply the second coat in the same manner as the first. A third coat is usually not necessary but can be applied if a higher gloss is desired.

Routine maintenance should include dust mopping to remove all surface dust and debris. Regular cleaning should be performed with an autoscrubber or mopping with a neutral cleaner such as Fresh 7.

■ SAFE STORAGE & HANDLING

Caution: This product is intended for Industrial and Institutional use. Although this is a mild cleaning agent, It can cause irritation to eyes and skin. Avoid contact by wearing protective devices such as safety glasses and rubber gloves. If contact to eyes or skin, flush with water for 10-15 minutes. If irritation persists, seek medical attention. Always read the Material Safety Data Sheet for additional precautions before using this product.
