

LS Daily Cleaner

With Densifier

This product is a biodegradable, highly concentrated cleaner/conditioner with Lithium Silicate Densifier added for daily cleaning, conditioning and densifying. This product is safe and easy to use on polished concrete and natural stone. The natural oils bring out the natural color and brilliance of the concrete and stone, and improves slip resistance on polished surfaces.

■ PHYSICAL PROPERTIES

APPEARANCE: Clear Liquid

SPECIFIC GRAVITY: 1.107

ODOR: Characteristic

pH (Conc.): 8-10

FLASH POINT: N/A (WATER-BASED LIQUID)

■ PACKAGING

LS Daily Cleaner is available in 4x1 gallon cases and 5 gallon pails.

■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to www.chemicaluniverse.com.

■ DIRECTIONS

FOR DAMP MOPPING

Dilute at a dilution rate of 2oz. per gallon with clean water for light traffic areas, 3 ounces per gallon for moderate to heavy traffic areas. Soak and wring mop and apply solution to the stone surface. Do not rinse or re-mop. Re-wet and wring mop often to avoid re-depositing dirt to the surface. Change the solution when it appears dirty. Best results will be achieved when buffed on polished surfaces.

NOTE: Best results are achieved when cotton mops are not used. Rayon blend mops are recommended. On polished surfaces,

COVERAGE: 30,000 TO 40,000 sq. ft. (2,787 - 3,716 sq. meters) per gallon.

FOR AUTOMATIC SCRUBBERS

Dilute Stone Soap at the rate of 2 ounces per gallon. Adjust flow rate valve so that the solution wets the surface but does not flood surface. Pass the scrubber over the floor in a manner that does not re-apply the solution onto previously scrubbed areas. Drop but do not lock the vacuum squeegee and turn vacuum on. Use red or white buffing pad.

COVERAGE: 20,000 TO 30,000 sq. ft. (1,858 - 2,787 sq. meters) per gallon.

■ SAFE STORAGE & HANDLING

CAUTION: MAY BE HARMFUL IF SWALLOWED. MAY CAUSE EYE IRRITATION. KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes. Do not ingest.

FIRST AID

For Eyes: Flush thoroughly with water for at least fifteen minutes. If irritation persists seek medical attention.

If ingested: Do not induce vomiting. Give large quantities of water. Seek medical attention.
