

BIG YELLOW

Granular Sewer Line Cleaner

Big Yellow is a compound containing sodium hydroxide flakes and a sacrificial aluminum. It is intended for the cleaning and maintenance of municipal sewer lines.

■ PHYSICAL PROPERTIES

APPEARANCE: Granular Powder
SPECIFIC GRAVITY: 1.023
ODOR: N/A
pH: 13.5 to 14 in 1% solution
FLASH POINT: N/A (Non-flammable Powder)

■ PACKAGING

Big Yellow is available in 50# Pails.

■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to www.chemicaluniverse.com.

■ DIRECTIONS

FOR MUNICIPALITIES: Pour slowly or use a dry shovel and add about 30 lbs. into strategic manholes. If larger doses are necessary use 60 lbs. This product needs water to do its work. If sewer system is dry, cold water should be poured down the manhole after the product is added. For every pound use 2 quarts cold water, for 30 lbs. use 15 gallons of cold water. Allow 1 to 2 hours contact time and if normal flow has not been obtained repeat but do not add more than 2 lbs per gallon of water in the line. after blockage is open, flush line thoroughly with cold water.

FOR INDUSTRY: This product is recommended for unclogging drains in food plants (particularly in packing houses) where accumulations of organic matter tend to clog drainage systems. Remove strainer from floor drains and add 1 pound of product to every 2 feet of sewer line to be treated followed by 2 quarts of cold water for every pound used. After blockage is open, flush line thoroughly with cold water.

■ SAFE STORAGE & HANDLING

Warning: This product is intended for Industrial and Institutional use. It can cause irritation and/or damage to eyes and skin. Avoid contact by wearing protective devices such as safety glasses and rubber gloves. If contact to eyes or skin, flush with water for 10-15 minutes. If irritation persists, seek medical attention. Always read the Material Safety Data Sheet for additional precautions before using this product.
