

# ULTIMATE STONE & GROUT

## Intensive Cleaner & Restorer

Ultimate Stone & Grout is a concentrated heavy duty alkaline cleaner and restorer for deep cleaning of heavily soiled tile and grout. Safe for use on all polished surfaces. Ultimate Stone & Grout is unmatched in it's ability to clean and restore stone and grout to it's original color. This non acid formula is safe to use on natural stone and will not etch the surface of the stone. You should always use a Alkaline based product on stone and grout first to remove greases, oils and any sealers on the surface. If further cleaning is needed an acid product can be used as a second phase of restoration. If an acid product is used as a second step you should rinse with Ultimate Stone & Grout to restore the pH of the stone and grout. Ultimate Stone & Grout Intensive Cleaner removes dark build-up of greases and soils that are typically imbedded in stone floors and grout.

### ■ PHYSICAL PROPERTIES

APPEARANCE: Clear Liquid  
 SPECIFIC GRAVITY: 1.023  
 ODOR: Butyl  
 pH (Conc.): 12 to 14  
 FLASH POINT: N/A (WATER-BASED LIQUID)

### ■ PACKAGING

Ultimate Stone & Grout is available in 4x1 gallon cases, 5 gallon pails and 55 gallon drums.

### ■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to [www.chemicaluniverse.com](http://www.chemicaluniverse.com).

### ■ DIRECTIONS

Protect all adjacent surfaces with masking film or plastic. Thoroughly wet area to be cleaned first.

1. To deep clean mix at 1 part cleaner to 10 parts water. (13 oz. per gallon)
2. To remove wax and light sealers mix at 1 part cleaner to 8 parts water. (16 oz. per gallon)
3. Let Ultimate Stone & Grout Intensive Cleaner act on the surface for a short time. Keep surface wet.
4. You may scrub heavily soiled areas with a hard bristle brush.
5. Rinse the floor with fresh water. Use a clean mop and pick up excess water with wet-vac or autoscrubber.

### ■ SAFE STORAGE & HANDLING

Warning: This product is intended for Industrial and Institutional use. It can cause irritation and/or damage to eyes and skin. Avoid contact by wearing protective devices such as safety glasses and rubber gloves. If contact to eyes or skin, flush with water for 10-15 minutes. If irritation persists, seek medical attention. Always read the Material Safety Data Sheet for additional precautions before using this product.
