

TUFF COAT

Low Maintenance Floor Finish

Tuff Coat Floor Finish is a new dynamic blend of high gloss polymers, leveling agents and drying solvents. Tuff Coat Floor Finish contains a new generation rubberized polymer that is designed to keep the finish shining brighter and wearing longer. Tuff Coat Floor Finish resists scratching and gives the floor an exceptionally long wear life. This product sets a completely new standard for floor finishes. It can be used on all resilient floors-vinyl asbestos, asphalt tile, vinyl sheet and tile, rubber, reinforced vinyl, and linoleum. It is specially formulated for low maintenance programs. Although it can be burnished on a regular basis, Tuff Coat will continue to shine without burnishing longer than traditional floor finishes.

■ PHYSICAL PROPERTIES

APPEARANCE: White Emulsion
SPECIFIC GRAVITY: 1.023
ODOR: Characteristic
pH (Conc.): 8 to 10
FLASH POINT: N/A (WATER-BASED LIQUID)
SOLIDS %: 20

■ PACKAGING

Tuff Coat is available in a 4X1 gallon case, 5 gallon pail, and 55 gallon drum.

■ ADDITIONAL INFORMATION

If you need additional information, please contact our corporate office at 816-471-3602. For a Material Safety Data Sheet go to www.chemicaluniverse.com.

■ DIRECTIONS

1. Clear the area to be finished of all movable objects.
2. Sweep the floor clean of loose dirt and rubbish.
3. Apply stripper and remove all old wax and floor finish. Repeat if necessary.
4. Rinse the floor as thoroughly as possible and let dry.
5. Work with clean equipment and mop on a thin coat of finish. Allow to dry thoroughly (at least 30-45 minutes) before applying another coat.
6. A minimum base of 4-5 coats is required before burnishing.

Maintenance: Sweep daily with a dust mop or cloth. Clean with a neutral pH cleaner with a mop bucket or automatic scrubber. Light cleaning will remove surface soils and stains and maintain gloss and color. Dry buff or burnish after cleaning to obtain a wet look. Heavy traffic lanes should be treated with a spray buff or restorer.

■ SAFE STORAGE & HANDLING

Caution: This product is intended for Industrial and Institutional use. Although this is a mild cleaning agent, it can cause irritation to eyes and skin. Avoid contact by wearing protective devices such as safety glasses and rubber gloves. If contact to eyes or skin, flush with water for 10-15 minutes. If irritation persists, seek medical attention. Always read the Material Safety Data Sheet for additional precautions before using this product.
