1. Identification

Product Identifier: Lock-N-Load #109 Carpet Spotter & Prespray
Other means of identification:
Product code: CU-L-109
Recommended use: Traffic lane pre-spray and multi-purpose carpet spotter.
Recommended restrictions: Professional use only.
Manufacturer information:
Company name: Chemical Universe, Inc.
Address: 1133 Saline St.
North Kansas City, MO 64116
Telephone: (816) 471-3602
Fax: (816) 474-3302
Emergency phone number: PERS (800) 633-8253
24 hour Emergency (800) 633-8253

2. Hazard(s) Identification

Physical hazards: Not classified.
Health hazards: Serious eye damage. Category 1
Skin irritant. Category 2
Environmental hazards: Not classified.
OSHA defined hazards: Not listed.
Label elements

Signal word: Danger
Hazard statement:
Causes serious eye damage.
Causes skin irritation
Precautionary statement:
Prevention:
Wear eye protection/face protection. Wash hands and exposed skin thoroughly after handling. Wear protective gloves.
Response:
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor/medical professional. IF ON SKIN: Wash with plenty of water for at least 15 minutes. Specific treatment (see section 4 on the Safety Data Sheet). If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
Storage:
Disposal:
Hazard(s) not otherwise classified (HNOC):
None.
Supplemental information:
None.

3. Composition/information on ingredients

SDS US
Material Name: Lock-N-Load #109 Carpet Spotter & Prespray
Page 1 of 6
4. First-aid measures

**Inhalation**
Move to fresh air. Call a physician if symptoms develop or persist.

**Skin contact**
Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

**Eye contact**
Rinse with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention. Eye wash stations should be located in work area.

**Ingestion**
Rinse mouth. Get medical attention if symptoms occur. Do not induce vomiting.

**Most important symptoms/effects, acute and delayed**
Dermatitis. Rash. May cause an allergic skin reaction.

**Indication of immediate medical attention and special treatment needed**
Provide general support measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

**General information**
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

**Suitable extinguishing media**
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO₂)

**Unsuitable extinguishing media**
None known

**Specific hazards arising from the chemical**
During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for firefighters**
Self-contained breathing apparatus and full protecting clothing must be worn in case of fire.

**Fire-fighting equipment/instructions**
Move containers from fire area if you can do so without risk.

**Specific methods**
Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**
No unusual fire or explosion hazards noted.

6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
Wear appropriate protective equipment and clothing during clean-up. Wear eye/face protection.

**Methods and materials for containment and cleaning up**
Caution – spillages may be slippery.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas.

Small spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the SDS.

**Environmental precautions**
Do not release into the environment (see section 12). Avoid discharge into areas not consistent with package labeling.
7. Handling and storage

Precautions for safe handling
Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store in original tightly closed container. Do not store in extreme conditions.

8. Exposure controls/personal protection

Occupational exposure limits
US OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Appropriate engineering controls
Emergency eye wash stations and showers should be readily accessible. Provide natural or mechanical ventilation.

Individual protection measures, such as personal protective equipment

Eye/face protection
Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection
Wear appropriate chemical resistant gloves.

Other
Wear long sleeve shirts with pants.

Respiratory protection
Respiratory protection not required.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations
When using do not smoke or use chewing tobacco. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance

Physical State
Liquid.

Color
Colorless.

Odor
Cherry Almond.

Odor threshold
Not available.

pH
12-13

Melting/freezing point
26°F (-3.3°C)

Initial boiling point and boiling range
>212°F (100°C)
Flash point  >212°F (100°C)
Evaporation rate Not available.
Flammability Not available.
Flammability Limits
   Upper Not available.
   Lower Not available.
Vapor pressure Not available.
Vapor density Not available.
Specific gravity (water=1) 1.0
Solubility in water Soluble.
Partition coefficient (n-octanol/water) Not available.
Auto-ignition temperature Not available.
Decomposition temperature Not available.
Viscosity Not available.

10. Stability and reactivity

Reactivity This product is stable and non-reactive under normal conditions of use.
Chemical stability Material is stable under normal conditions.
Possibility of hazardous reactions Hazardous polymerization does not occur.
Conditions to avoid Heat, flames can cause product to decompose.
Incompatible materials Strong acids, strong bases, strong oxidizing agents.
Hazardous decomposition products Aldehydes, ketones, organic acids, carbon dioxide, carbon monoxide.

11. Toxicological information

Information on likely routes of exposure
   Ingestion Corrosive to mucous membranes, will damage tissue if there is prolonged contact.
   Inhalation Expected to be a low inhalation hazard.
   Skin contact Repeated and/or prolonged skin contact may cause irritation and/or burns.
   Eye contact Causes severe eye damage. May cause severe corneal injury.
Symptoms related to the physical, chemical and toxicological characteristics Dermatitis. Rash. May cause an allergic skin reaction.
Acute toxicity Expected to have a low toxicity.

*Estimates for product may be based on additional component data not shown

Skin corrosion/irritation Causes skin irritation.
Serious eye damage/irritation Causes serious eye damage.
Respiratory sensitization Not classified.
Skin sensitization Not classified.
Germ cell mutagenicity  Not classified.
Carcinogenicity  Not considered a carcinogen.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not Listed.

Reproductive toxicity  Not classified.
Specific target organ toxicity
– single exposure  Not classified.
Specific target organ toxicity
– repeated exposure  Not classified.
Aspiration hazard  Not considered an aspiration hazard.

12. Ecological information

Ecotoxicity

</tbody>
</table>

*Estimates for product may be based on additional component data not shown

Persistence and degradability  Nonylphenyl ethoxylate: not considered readily biodegradable, but doesn’t mean this material isn’t biodegradable under certain environmental conditions.

Bioaccumulative potential  No data available.
Mobility in soil  Not available.
Other adverse effects  The pH of this product may cause it to be toxic to aquatic and terrestrial organisms.

13. Disposal considerations

Disposal instructions  Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations. Do not release to the environment.

Local disposal regulations  Dispose in accordance with all applicable regulations

Waste from residues/unused product  Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner. (see: Disposal instructions).

Contaminated packaging  Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may contain product residue, follow label warnings even after container is emptied.

14. Transport information
