### ABOUT THIS PRODUCT

LockNLoad 111 Heavy Duty Restroom Cleaner is an acid based product formulated to eliminate tough soils including soap scum, hard water deposits, rust stains and mildew. Spray on surface to be cleaned or apply with damp sponge or cloth. Allow solution to work before wiping surface clean. Allow to remain on surface a sufficient amount of time depending on the severity of the soil. Heavy deposits may require light scrubbing with a brush. Rinse thoroughly with clean water or wipe with a clean damp sponge or cloth.

Spot check hidden area of surface to be cleaned first. Avoid contamination of food in the use and storage of this product. Surfaces subject to direct food contact must be rinsed with potable water. This product is an acid based product and should not be used on natural stone. Test on an inconspicuous area, if uncertain.

### DIRECTIONS

Insert container into the LockNLoad Dilution Station. Lock the container into place by sliding the blue lock to the left. This locks in the container and connects it to the Dilution Station. The Dilution Station is set to properly dilute the concentrate with water.

To fill small containers by using the short hose on the right side of the Dilution Station. Insert the short tube into your container and push up on the container to activate or push up on the grey button on the face of the Dilution Station. To fill a large container, use the long hose on the left side of the Dilution Station. Place the hose end in the container and push the button on the black gas pump style handle. (hose does not automatically shut off when container is full).

LockNLoad products are designed to be used with the LockNLoad Dispensing Station. The product should be loaded into the Dispensing Station and locked into place. Using the Dispensing Station will ensure that the concentrate is diluted correctly at 64:1. One gallon of LockNLoad Concentrate makes 64 gallons of ready to use product.

The grey dilution lock in the opening of the container should never be removed. If the dilution lock has been removed, the contents of the container and the container should be properly disposed of.

### PRECAUTIONARY STATEMENTS

**Prevention:** Keep only in original container. Do not breathe dusts or mists. Wash skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/ face protection.

**Response:** Absorb spillage to prevent material damage. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing.
